

SHUBHAM BACHHAV

Java Full Stack Developer | 2.4 Yrs | Spring Boot, Microservices, React, JavaScript, AWS, REST APIs, SQL

shubhambachhavpatil@gmail.com | +91 8669712805 | Pune, 411021

PROFESSIONAL SUMMARY

Java Full Stack Developer with **2.4 years of experience** designing, developing, and deploying **scalable web applications** in **Agile/Scrum** environments. Strong expertise in **Java, Spring Boot, Spring MVC, Spring Security, Hibernate, JPA and RESTful API** development using **Microservices architecture**. Proficient in front-end development with **React.js, JavaScript, HTML5, CSS3, Redux, and Bootstrap**. Hands-on experience with **MySQL**, for efficient database design and query optimization. Skilled in **AWS** and **CI/CD** pipelines for streamlined deployment. Experienced in **Git, Maven, JIRA, Postman, JUnit, Jest**, and **Integration Testing** within **Agile/Scrum SDLC**. Adept at performance optimization, clean code practices, and building secure, high-availability systems. Delivers reliable, production-grade solutions that accelerate business outcomes and enhance end-user experience.

SKILLS

Programming Languages: Java, JavaScript, TypeScript, SQL

Backend Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, RESTful APIs, Microservices Architecture, JSON, XML, JWT Authentication, Exception Handling

Frontend Technologies: React.js, Redux, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design, Cross-Browser Compatibility, Web Performance Optimization

Databases: MySQL, PostgreSQL, MongoDB, SQL Queries, Database Design

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, CI, CD

Tools & Version Control: Git, GitHub, Maven, Postman, JIRA, IntelliJ IDEA, VS Code

Testing: JUnit, Jest, Integration Testing, Unit Testing, API Testing

Methodologies: Agile, Scrum

EXPERIENCE

Software Engineer

Client Company : Capgemini

Payroll Company : MarkGenic Software Pvt Ltd

Apr 2024 – Present | Full-time

PROJECTS

1. Hospital Management & Appointment System

Developed a **scalable Hospital Management & Appointment System** that streamlines **patient record management, doctor scheduling, appointment booking**, and **billing workflows** for **hospitals and clinics**. Architected a **secure Single Page Application (SPA)** integrating a React frontend with a Spring Boot backend, serving patients, doctors, and administrative staff through **role-based dashboards**. Contributed across the **full stack**, from UI design to secure API development and database integration.

Roles & responsibilities:

- Developed a scalable **Single Page Application (SPA)** using React.js, Tailwind CSS, and modern JavaScript (ES6+)
- Implemented **Redux Toolkit** for efficient state management and seamless data flow across modules
- Integrated **RESTful APIs** using Axios for real-time patient, doctor, and appointment data handling
- Built secure backend services using **Spring Boot, Spring MVC, and Hibernate (JPA)**
- Designed and implemented **JWT-based authentication and Role-Based Access Control (RBAC)**
- Created and optimized **MySQL database schemas**, improving query performance and data consistency
- Enhanced performance using **lazy loading, code splitting, and reusable components**
- Collaborated in **Agile Scrum environment** with Git-based version control and API testing via Postman.

Outcome: Delivered a production-ready hospital platform that **reduced appointment processing time by 40%** and **improved operational efficiency for clinical and administrative staff**.

Skills used: React.js, JavaScript (ES6+), Redux, Tailwind CSS, HTML5, CSS3, Spring Boot, REST APIs, JWT, MySQL

2. Retail E-Commerce Management Platform

Built a **responsive Retail E-Commerce Management Platform** enabling customers to **browse products, manage carts, and place orders** while empowering administrators to **control catalog and order fulfillment**. Serving **online shoppers and retail operations teams**, the candidate contributed across the **full stack**, delivering React-based interfaces and Spring Boot APIs that unified the shopping and admin experiences.

Roles & responsibilities:

- Designed responsive and user-friendly UI using **React.js, Tailwind CSS, and JavaScript (ES6+)**
- Implemented **Redux** for centralized state management across cart, product, and order modules
- Integrated frontend with backend via **REST APIs**, ensuring smooth client-server communication
- Developed scalable backend services using **Spring Boot and Hibernate (JPA)**
- Implemented **JWT authentication and RBAC** to secure customer and admin workflows
- Designed and managed **MySQL database**, including schema design and query optimization
- Improved performance using **memoization, lazy loading, and code splitting techniques**
- Followed **Agile methodology**, using Git for version control and Postman for API testing

Outcome: *Delivered a production-ready e-commerce platform that reduced page load time by 25% and boosted user engagement by 40% across shopper journeys.*

Skills used: React.js, JavaScript (ES6+), Redux, Tailwind CSS, HTML5, CSS3, Spring Boot, REST APIs, JWT, MySQL

EDUCATION

Bachelor's of Engineering (Mech) - KKWIEER, Nashik | Savitribai Phule Pune University | 2023 | Grade : A (First Class)

HSC – Maharashtra State Board | 2019

SSC – Maharashtra State Board | 2017

CERTIFICATIONS

Full Stack Java Developer — Seven Mentor Training Institute, Pune

ACHIEVEMENTS

- Top performer in team
- Completed certifications in Java Full Stack Development
- Participated in hackathons / coding competitions
- Delivered projects before deadline in Agile environment

HOBBIES & INTERESTS

Exploring new technologies, Problem solving, Reading tech blogs, staying updated with new frameworks, Reading, Trekking

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
